New Vision Council  
May 20, 2010  
8:30 a.m., Magnolia Room  
LSCC, Leesburg Campus

Present: Jim Beyer, Mike Buecher, Melissa Demarco, Ann Dupee, Bill Farmer, Christ Hamilton, Tom Banks, Jr. for Lee Huntley, Everett Kelly, Leslie Longacre, Lois Risser, Jon Simpson, and Linda Winchester. Dick Scott, Dr. Barbara Howard, Dr. Mary Jo Rager, Shelly Weidenhammer, Scott Blankenship, Dick Bowersox, Brian Emery, Jackie Busboom, Rosanne Brandeburg, and three students were also in attendance. Dick Scott, Dr. Barbara Howard, Dr. Mary Jo Rager, Shelly Weidenhammer, Scott Blankenship, Dick Bowersox, Brian Emery, Jackie Busboom, Rosanne Brandeburg, and three students were also in attendance. Dr. Mojock and Dr. Klingman.

Dr. Klingman welcomed everyone and asked for a brief introduction from everyone and Mr. Simpson also welcomed everyone on behalf of the Trustees. He turned the meeting over to Dr. Mojock. Dr. Mojock presented four Conceptual Models of the college degree structure which included: 1) LSCC’s current model 2) the Horizontal-Additive model (where most of community colleges are) 3) Vertical-Integrated model and 4) Partnership-Integrated model. There was much discussion about the different models.

Questions and comments:
- What is the length of time to get through the process?
- The partnership-Integrated model is the more community minded and economically supported model.
- Has there been any thought as to why a student would do three years at LSCC and then go to a university to get his degree?
- Do we have room to add three year classes?
- Do we have qualified faculty to teach three year classes?
- The Partnership-Integrated model is more a portfolio approach to educational opportunity.
- Do we have any data that may show any problems with the colleges who are offering four year degrees?
- How are we affected by the programs that UCF suspended?
- Can we still do the Partnership-Integrated model and pursue 4 year degrees at LSCC?
- What offerings in the hospital and health care fields do we need to be adding?
- The Partnership-Integrated model is an efficient use of resources. It is a large launching pad for our students.
- The Partnership-Integrated model is our future.
- Will the cost of a degree be more if LSCC offers a four year program?
- Will students be limited to only one or two universities to cross over to?
- The partnership-Integrated model is unique. It is ahead of the curve. But it will not be an easy model to adapt.
- LSCC cannot do this model by itself.
- This model will grow Lake and Sumter counties economically.
- LSCC needs help and support to engage Lake Technical Center.
Suggestions:

- Process needs to continue. There needs to be some committees established to address the issues.
- Decide on which programs to offer.
- Get help with the political process.
- Find out what other schools may want to come on board.
- Develop listening sessions in the community.
- NVC members need to talk up this model wherever and whenever possible.

It was suggested that Dr. Klingman prepare his report for the NVC. It will be sent out within the next couple of weeks. At the next meeting, which will be held on June 20, a vote will be taken to see if the entire council is supportive of the Partnership-Integrated model. Members will be encouraged to be present to place their vote.

10:15 a.m.
Linda Holiman
