eBay Buying & Selling

eBay is the world's online marketplace where buyers and sellers come together in order to buy or sell. A seller can list items on eBay and choose to accept only bids or offer the “buy it now” option, which enables buyers to purchase the item straight away at a fixed price. In an online auction, the buyer with the highest bid becomes the winner.

This eBay seminar is designed to show you what eBay is and how it works. You experience the buying and selling processes and are ready to use the site for your own buying and selling. **If you are already registered with eBay and/or PayPal, please bring your user names and passwords to class.**

PREREQUISITES:
You need basic computer skills to complete this course.

DELIVERY METHOD:
Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

OBJECTIVES:
- Set up accounts for eBay and PayPal
- Use the find, bid, and buy processes
- Understand Feedback and its value
- Walk through the picture and listing process
- Learn how to receive money
- Understand how to ship the product
